LOOK

A LOOK BICYCLE

Cutting edge technology available to all When one looks for an exceptional bicycle, equally light as it is powerful and responsive, with impressive good looks, it is natural to turn toward the technology and design of LOOK bicycles.

TRIATHION

NARROWEST BIKE

The key words to define the line of triathlon bicycles are integration and aerodynamics...optimized the extreme! The Monoblade 796, the narrowest bicycle ever created, is the product of the technological prowess of LOOK's engineers.

TRACK

BIKES

LOOK AND TRACK

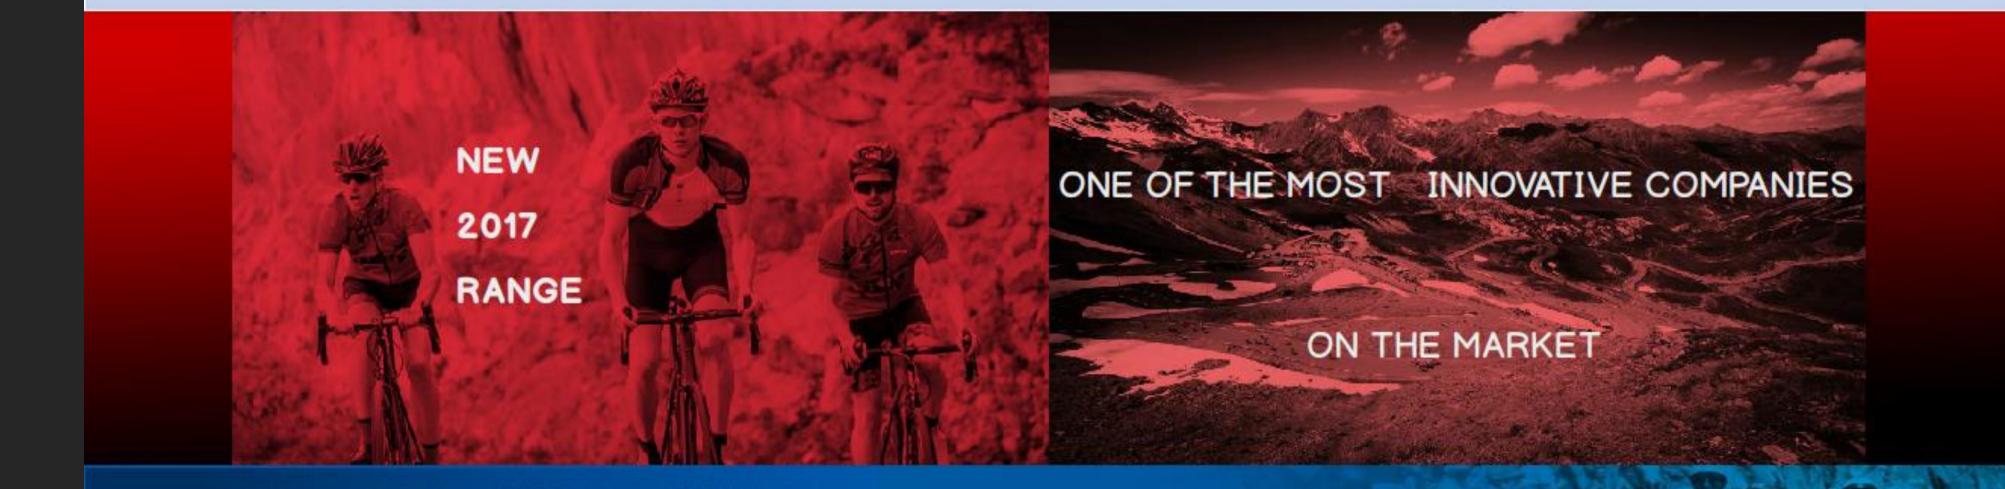

Historically, LOOK has always been THE reference on the track. These jewels of technology and power on the track are extremely reliable and « blow away » the stopwatch. As proof, 7 World Championship titles and a World Record in the kilometer were won in 2015.

MTB

LOOK HARDTAILS

The dependability and output of our hardtails rely on cutting-edge technology and constant innovation. These products, available in 27.5 and 29 inch versions, benefit from all of our carbon expertise and know-how.
